*Individual and Consolidated
Financial Statement for the Quarter Ended
March 31, 2002 and
Independent Auditors' Report*

(Convenience Translation into English from the Original Previously Issued in Portuguese)

INDEPENDENT AUDITORS' SPECIAL REVIEW REPORT

To the Stockholders and Board of Directors of
Unibanco - União de Bancos Brasileiros S.A.
São Paulo - SP

We have performed a special review of the accompanying quarterly information - ITR (Parent Company and Consolidated) of Unibanco - União de Bancos Brasileiros S.A. for the quarter ended March 31, 2002, prepared in accordance with accounting practices established by Brazilian Corporate Law, which are comprised of the balance sheet, statement of income and performance report.

2. Our review was conducted in accordance with specific rules and regulations established by the IBRACON - Brazilian Institute of Independent Auditors and the Federal Accounting Council, and consisted, principally, of: (a) inquiries of Bank personnel about the criteria adopted in preparing the quarterly information; and (b) review of the information and subsequent events that have or could have material effects on the financial position and operations of the Bank.
3. The financial statements of certain consolidated subsidiaries described in item (6) of the Note 9 to the financial statements, for the quarter ended March 31, 2002, were reviewed by other independent auditors whose report has been furnished to us, and our report, insofar as it relates to the amounts included for these subsidiary companies, is based solely on the reports of the other auditors.
4. Based on our review and on the report of other auditors, we are not aware of any material modifications that should be made to the quarterly information referred to above in order for them to be in conformity with accounting practices established by Brazilian Corporate Law and specific standards issued by the Brazilian Securities and Exchange Commission, specifically applied to the preparation of the obligatory quarterly information.
5. Additionally, we have reviewed the statements of cash flows (Parent Company and Consolidated) for the quarter ended March 31, 2002, presented in Note 19 to the financial statements, applying the same procedures that are described in Paragraph 2 above. These statements are not required by Brazilian Corporate Law and are intended to provide additional information. Based on our review, we are not aware of any material modifications that should be made to the statements of cash flows in order for them to be in conformity with Brazilian Accounting Practices.
6. Previously, we audited the balance sheets (Parent Company and Consolidated) as of December 31, 2001 and performed a special review on the income statements (Parent Company and Consolidated) for the quarter ended March 31, 2001, and issued an opinion

and a report, dated February 15, 2002 and May 10, 2001, respectively, that expressed unqualified opinions.

7. These financial statements have been translated into English for the convenience of the readers.

Corporate Legislation**NOTES TO THE FINANCIAL STATEMENTS (Amounts expressed in thousands of Reais, unless otherwise indicated)****1. Operations**

The consolidated operations of Unibanco - União de Bancos Brasileiros S.A. and its direct and indirect subsidiaries and jointly controlled companies in Brazil and abroad include, besides the financial activities of the Unibanco Conglomerate, other activities carried out by subsidiaries with specific objectives, principally, related to insurance, credit card operations, capitalization plans and private retirement plans.

2. Presentation of Financial Statements

The financial statements of Unibanco - União de Bancos Brasileiros S.A. and its foreign branches (Unibanco) are presented together with the consolidated financial statements of Unibanco and its subsidiaries (Unibanco Consolidated), which comprise the accounts of Unibanco - União de Bancos Brasileiros S.A., its foreign branches, its direct and indirect subsidiaries, and its jointly controlled companies, as shown in Note 9.

The consolidated financial statements have been prepared in accordance with consolidation principles determined by the Brazilian Securities and Exchange Commission (CVM). Intercompany investments, balances, income and expenses, as well as unrealized results, were eliminated upon consolidation.

The financial statements of the subsidiaries Unibanco Leasing S.A. - Arrendamento Mercantil and Dibens Leasing S.A. - Arrendamento Mercantil were reclassified by means of out-of-book adjustments, in order to reflect their financial position and results of operations in the consolidation in accordance with the financial method of accounting for leasing transactions.

In conformity with CVM Instruction 247/96, assets, liabilities, revenues and expenses of jointly controlled companies have been included in the consolidated financial statements on a proportional basis.

3. Summary of Significant Accounting Policies

The accounting policies adopted by Unibanco and its subsidiary companies are in accordance with the requirements of Brazilian Corporate Law and the regulations of the Brazilian Central Bank, the Brazilian Securities and Exchange Commission and the Superintendency of Private Insurances.

(a) Determination of net income

Net income is determined on the accrual basis and considers:

- income, expenses and monetary or exchange rate variations, at official rates or indices, pro rata temporis, on current and long-term assets and liabilities;
- the effects of the provisions to adjust the assets to market or realizable values;
- the adjustments to the insurance, the capitalization and the retirement plans technical reserves;

(b) Current and long-term assets

These assets are stated at cost plus, when applicable, the related income and monetary and exchange rate variations, and decreased by the related unearned income and/or allowances for losses. The allowance for lending, leasing and other credit losses is set up in an amount considered sufficient by management to cover possible future losses. Management's analysis to establish the provision required takes into account the economic environment, past experience and specific and general portfolio risks, as well as the regulations of the Brazilian Central Bank.

(c) Permanent assets

Investments, fixed assets and deferred charges are stated at cost.

Investments in subsidiary and associated companies are accounted for using the equity method of accounting, as shown in Note 9. Other investments consist principally of investments carried at cost and membership certificates of stock and commodities exchange adjusted to book equity values.

Goodwill relating to the acquisition of subsidiaries is being amortized up to 10 years, according to the expected period of benefit.

Depreciation of fixed assets is calculated on the straight-line method at the following annual rates: buildings in use - 4%; equipment in use - 10%; communications, data processing, and transportation systems - 20%.

Deferred charges, composed substantially of leasehold improvements and software acquisition and development, are amortized over the term of the respective lease contracts or up to five years.

(d) Current and long-term liabilities

These amounts include, when applicable, accrued interest and monetary and exchange rate variations.

9. Investments

(a) Investments in subsidiary and associated companies

Results of investments in subsidiary and associated companies were recorded as "Equity in results of subsidiary and associated companies". The foreign branches and subsidiary companies exchange gain in the amount of R\$2,910 in Unibanco and R\$1,587 in Unibanco Consolidated were recognized as "Other operating income". As a result of the high foreign exchange volatility in 2001, Unibanco partially hedged its foreign investments in U.S. dollars in the amount of US\$450 million. The income of R\$26,265 in Unibanco and Unibanco Consolidated, in the first quarter of 2002, was also recorded in "Other operating income", increasing the exchange gain on foreign investments. 13. Tax, Employee and Civil Litigations

Unibanco and its subsidiaries are defendants in several legal actions, relating principally to income taxes, indirect taxes and labor claims. Based on the advice of our external counsel, Unibanco recorded provisions to offset possible future losses, based on the success probability of the suits. Provisions recorded and the changes in the provision were as follows:

	Unibanco	Unibanco Consolidated
Balance at December 31, 2001	648,680	1,471,784
Provision charged	64,697	101,895
Payments	(14,613)	(18,838)
Balance at March 31, 2002	698,764	1,554,841

(a) Tax litigation

Unibanco and its subsidiaries are involved in several tax suit, including those relating to the constitutionality of certain taxes and the potential liability is fully provisioned.

(b) Employee litigation

Labor unions and former employees filed several lawsuits against Unibanco and its subsidiaries to seek compensation for labor rights. Unibanco cannot assure that it will win these lawsuits and, based of this, the contingency amount is recorded as provision, based on the average of payments made.

(c) Civil litigation

Unibanco and its subsidiaries filed other actions and claims on a variety of matters, including, previous economic plans. The civil litigations provisions are recorded in accordance with the probability of success in each type of claim.

(d) Bandeirantes shareholders' claims

Certain former minority shareholders of Banco Bandeirantes S.A. (Bandeirantes) have initiated lawsuits against Bandeirantes, Caixa Geral de Depósitos, former controlling shareholders of Bandeirantes and/or against Unibanco. Certain former shareholders of Banorte (a bank acquired by Bandeirantes before Unibanco became the controlling shareholder of Bandeirantes) have also filed lawsuits against Bandeirantes and the Central Bank of Brazil, seeking to terminate the Central Bank intervention in Banorte before its acquisition by Bandeirantes. In accordance with the Agreement between Unibanco and Caixa Geral de Depósitos for the acquisition of a controlling interest in Bandeirantes, Caixa Geral de Depósitos assumed full responsibility for such lawsuits. Therefore it is not necessary to record provisions for this purpose.

14. Stockholders' Equity

(a) Capital

Subscribed and paid-in capital is comprised of shares without par value, as follows:

	Outstanding shares	Treasury stocks	Total
Common	75,568,744,349	-	75,568,744,349
Preferred	62,978,067,863	2,339,021,106	65,317,088,969
Total	138,546,812,212	2,339,021,106	140,885,833,318

Preferred shares carry no voting rights but have priority over common stocks in the reimbursement of capital in the case of liquidation, up to the amount of capital represented by such preferred shares, and are entitled to receive a 10% greater dividend per share than that distributed to common stockholders.

Each Share Deposit Certificate (*Unit*) is represented by a preferred share issued by Unibanco and by a Class B preferred share issued by Unibanco Holdings S.A. (Holdings) and is traded in the Brazilian market.

Each *Global Depositary Share* (GDS) is represented by 500 *Units*, and is traded in the international market.

(b) Dividends and interest on own capital

All stockholders are entitled to receive, in total, a mandatory dividend of at least 35% of the Bank's annual net income as stated in the statutory accounting records, adjusted for transfers to the legal reserve.

On January 22, 2002, the Board of Directors approved the distribution of dividends, as an advance against the mandatory dividend for 2001 in the amount of R\$170,985 representing R\$1.1801 per 1,000 common shares and R\$1.2981 per 1,000 preferred shares. The payment of the dividends was made as from January 31, 2002.

For each *Unit* there were dividends of R\$2.4874 per 1,000 *Units* attributed, R\$1.1893 from Holdings and R\$1.2981 from Unibanco.

For each GDS there were dividends of R\$1.2437 attributed.

The amounts above reflect operations between Unibanco and its subsidiary companies, and were eliminated in consolidation. Transactions with unconsolidated related parties are limited to normal banking transactions and are not material in the operational context of Unibanco.

Related-party transactions were made at average market rates, in effect at the respective transaction dates, considering the absence of risk.

Services rendered relate basically to services offered by Unibanco to the group companies according to the terms of the contractual agreements, through utilization of physical assets and personnel related to credit card, leasing, capitalization plans, insurance operations and brokerage.

Other administrative expenses relate mainly to the payment of rents based on the market value of the buildings according to the lease contracts.

18. Financial Instruments

Unibanco enters into transactions in a variety of financial instruments recorded in its own financial statements or off-balance sheet in memorandum accounts, in order to meet its own and its customers' needs to reduce exposure to market, currency and interest rate risks.

The risks involved in these operations are managed through operational policies, determination of limits by the Bank's Financial Committee and by closely monitoring positions.

Interest rate and currency term and futures contracts represent future commitments to purchase or sell financial instruments at specific terms and at specified dates. The notional amounts represent the face value of the corresponding instrument at the date of the operations' liquidation. The credit risks associated with the future and term contracts are minimized due to daily cash settlements and margin account deposits. Future and term contracts are subject to the risk of movements in interest rates or the value of the underlying instruments.

Swap contracts represent future commitments to exchange currencies or indices for a contractual period and terms. The notional amount represents the basis on which the cash flows are determined. The risks associated with swaps relate to the potential inability or unwillingness of the counterparts to the contractual conditions and the risk associated with changes in market conditions due to movements in interest rates and the exchange rate of currencies.

Options are contracts which: (i) transfer, modify, or reduce interest rate risk, or (ii) allow the Bank to purchase or sell financial instruments in exchange for the payment or receipt of a premium at inception of the contract. As a purchaser of options, Unibanco pays a premium and, as a writer of options, receives a premium in exchange for bearing the risk of movements in future interest rates on market prices for the underlying financial instruments. The credit and market risks are limited to the extent of premiums paid on purchased options and the risk associated with the movements in market conditions could influence written options.

Corporate Legislation**NOTES TO THE FINANCIAL STATEMENTS (Amounts expressed in thousands of Reals, unless otherwise indicated)****(c) Free Benefits Generation Program**

Unibanco and part of its employees sponsor a "Free Benefits Generation Program" (PGBL), a system whereby the participant accumulates financial resources during their career, through contributions paid by the employee and the Company where he works. These contributions are invested in an Exclusive Financial Investment Fund (FIFE). The program is based on defined contribution.

The program is managed by Unibanco Previdência S.A. and Unibanco Asset Management – Banco de Investimento S.A. is responsible for the financial management of the FIFE funds.

The contributions made by employees vary according to their ages between 1% to 9% and the contributions made by Unibanco vary according to the return on equity in the prior year between 50% and 200% of the participant's contribution, directly related to the return on equity.

As a result of Banco Bandeirantes' acquisition, Unibanco and a portion of its employees also sponsor a defined contribution pension plan administered by Trevo – Instituto Bandeirantes de Seguridade Social, a private pension entity, for the primary purpose of supplementing the retirement benefits provided by the government retirement plans.

In the quarter of 2002, the contribution was R\$434 in Unibanco and R\$1,655 in Unibanco Consolidated.

(d) Stock option program

The Extraordinary Shareholders' Meeting held on October 31, 2001 approved the stock option program, denominated *Performance*. The objective of *Performance* is to foster the executives' long-term commitment to the highest performance standards, as well as attract, retain and motivate new talents. Pursuant to the *Performance* program, the executives of Unibanco can be granted stock or unit options that can be exercised between 2 to 5 years. The option rights are limited to 1% of the authorized capital per year and the amount granted is limited to 10% of the authorized capital, as a whole.

Up to March 31, 2002, Unibanco granted 618,800,000 stocks option, in a form of Unit. The term of the exercise is between January 21, 2005 and January 21, 2007.

(e) Assets leased to third parties, in the amount of R\$1,494,264, net of depreciation, are committed for sale to the lessees, at their option, at the end of the respective contracts for R\$1,137,337 the residual value received in advance from these lessees amounts to R\$837,459, classified as reduction account of leasing operations.

(f) Assets leased from third parties are being amortized through 2004. Expenses incurred on leasing operations totaled R\$13,717 in Unibanco and R\$13,984 in Unibanco Consolidated. If the leasing agreements were recorded as financing purchase, the leased assets at original cost, restated and depreciated would be R\$36,450 in Unibanco and R\$37,512 in Unibanco Consolidated and the debt recorded as liabilities would be R\$29,749 in Unibanco and R\$29,835 in Unibanco Consolidated.

(g) Unibanco and its subsidiaries insure their properties and equipment to the extent considered necessary to cover possible losses, taking into account the nature of the activity. At March 31, 2002, the insurance coverage on properties and other assets in use totaled R\$511,527 in Unibanco and R\$1,081,835 in Unibanco Consolidated.

22. Change in Classification and Valuation of Marketable Securities and Derivative Financial Instruments

The Brazilian Central Bank established new rules to record and valuation of marketable securities and derivative financial instruments, effective June 30, 2002.

(i) Marketable securities

According to the Brazilian Central Bank Circular 3068 issued on November 8, 2001, the securities must be classified as follows: a) trading securities; b) securities available for sale; and c) securities held to maturity.

Securities classified as trading and available for sale must be carried at fair value and the unrealized gain or loss must be recognized as revenue or expense for the period, if related to trading securities or as a specific component of stockholders' equity, net of applicable taxes, if related to securities available for sale. Securities held to maturity must be recorded at acquisition cost, plus accrued interest, which will be recorded in revenue for the period.

NOTES TO THE FINANCIAL STATEMENTS (Amounts expressed in thousands of Reals, unless otherwise indicated)

(ii) Derivative financial instruments

According to the Brazilian Central Bank Circular 3082 issued on January 30, 2002, the derivative financial instruments must be recorded at fair value and the unrealized gain or loss must be recognized as revenue or expense for the period, although a specific practice must be observed for derivative instruments used for hedging.

The derivative financial instruments must be classified as: a) market risk hedge, and b) cash flow hedge. The derivative financial instruments designated as hedge, and the respective item subject to the hedge, must be adjusted at their fair value and the unrealized gain or loss must be recorded as revenue or expense for the period, if designated as market risk hedge, and in a specific component of stockholders' equity, net of applicable taxes, if designated as cash flow hedge.

The expected gain on Unibanco's financial position resulted from the application of these new criteria, based on the securities and derivatives instruments portfolios and in the market price conditions in place at March 31, 2002 is estimated in R\$60 million, net of taxes effects.

23. Subsequent Events

(a) On April 12, 2002, the Brazilian Central Bank approved the acquisition of 24.5% of total capital of Unicorp Bank & Trust Ltd., by Unipart Participações Internacionais Ltd., for US\$36 million. As a result of this transaction, Unibanco own 100% of capital.

(b) On April 30, 2002, Unibanco, through its Grand Cayman Branch, issued US\$200 million of subordinated debt, with 10 years term and semi-annual interest payment. The issue could be redeemed in five years or in any subsequent interest payment date. The coupon is 9.375% per annum for the first five years and thereafter 11.79% per annum.

Net Income and Stockholders' Equity

Net income for first quarter of 2002 reached R\$222 million, up 5.7% over first quarter of 2001 figure (R\$210 million) and down 7.9% over fourth quarter of 2001 (R\$241 million). first quarter of 2002 operating income of R\$391 million posted a 47.0% growth vs. first quarter of 2001 and 68.5% vs. fourth quarter of 2001.

Earnings per 1,000 shares reached R\$1.60 in first quarter of 2002, favored by the share buy-back program, being 6.7% above the first quarter of 2001 figure of R\$1.50 per 1,000 shares. If one disregards such effect, the growth would reach 5.7%.

Stockholders' equity stood at R\$6.3 billion in March 2002, an increase of 3.8% when compared to December 2001. First quarter of 2002's annualized return on average equity was 15.1% , while the annualized return on average assets was 1.6%. The book value per 1,000 shares was R\$45.48 at the end of the period.

Assets

Consolidated assets of R\$59.0 billion represented a growth of 6.1% for the quarter and a 7.4% year to year increase. The expansion in first quarter of 2002 was noticed mainly in the securities portfolio, mostly in federal government securities.

R\$24.9 billion of Unibanco's assets were lending, leasing and other credits, R\$17.6 billion were marketable securities - issued primarily by the federal government - and R\$3.8 billion were interbank investments.

Securities Portfolio

The R\$17.6 billion total securities portfolio at the end of March 2002 grew 13.7% and 38.9% over December 2001 and March 2001, respectively, largely due to higher investments in federal government securities maturing in up to 90 days. Non-financial corporate debt securities consist primarily of eurobonds and debentures. The carrying of these securities is considered in the credit evaluation of the issuers, using credit risk allocation.

The participation of securities in total assets reached 29.8% in first quarter of 2002, vs. 27.8% in fourth quarter of 2001 and 23.1% in first quarter of 2001.

Risk Portfolio and Allowance for Lending, Leasing and Other Credits Losses

The R\$25.3 billion total loan risk portfolio, which includes guarantees honored, decreased by 2.1% over the quarter and grew by 7.7% year to year. The economic slowdown over the last few months, coupled with enhanced prudence in the granting of loans led to a reduction of Unibanco's credit risk during first quarter of 2002. .

At the end of March 2002, the consolidated allowance for lending, leasing and other credits losses, pursuant to National Monetary Council Resolution 2682, totaled R\$1,496 million, down 2.7% quarter to quarter and representing 5.9% of total credit risk, maintaining basically the same coverage as the previous quarter.

In accordance with the Resolution 2682, total provisioning expenses for first quarter of 2002 were R\$417 million, against R\$489 million in fourth quarter of 2001 and R\$382 million in first quarter of 2001.

Unibanco's overall funding reached R\$66.6 billion, up 4.7% and 7.0% over the past three and twelve months. This amount includes R\$20.9 billion of funds under management. Total local and foreign funding increased 5.8% over the quarter to R\$45.8 billion on March 31, 2002.

Local funding rose 8.6% over the last three months to R\$35.3 billion, mainly due to the growth in time deposits and funds obtained in the open market.

As a result of seasonal effects, demand deposits fell by 7.7% in first quarter of 2002 vs. fourth quarter of 2001, whereas savings deposits remained stable.

During the first quarter of 2002, in line with a market trend toward a greater allocation of portfolios to low risky assets, there was greater demand for time deposits, among the customers of both the Retail Bank and the Wholesale Bank.

Corporate Legislation**COMMENTS ON PERFORMANCE FOR THE QUARTER**

Growth in the funds obtained in the open market took place due to an increase in arbitrage opportunities with low risk in the government bond market. These funds are invested largely in securities that, as previously mentioned, increased by 13.7% in the quarter.

Foreign funding posted a drop of 2.7% over the quarter, totaling R\$10.5 billion at the end of March 2002. The reduction in the import and export lines during the period was due to alternative lines of funding at more attractive costs.

Funds and portfolios under management were up 2.2% over the quarter, from R\$20.4 billion at the end of December 2001 to R\$20.9 billion at the end of March 2002.

Capital Adequacy Ratio

The Basel capital adequacy ratio, in accordance with Central Bank guidelines, stood at 13.8% in March 2002, against 13.7% in December 2001 and 15.3% in March 2001. As a subsequent event, Unibanco issued subordinated debt amounting to US\$200 million in April 2002, which is included the bank's capital base as Tier II, increasing the Basel ratio pro-forma to 14.8%. This was Unibanco's first subordinated debt operation, making use of an alternative tool for increasing its capital base.

Main Subsidiaries and Affiliates***Insurance***

The Unibanco AIG Seguros generated net income of R\$48 million in first quarter of 2002, compared with R\$32 million of fourth quarter of 2001, R\$24 million of which contributed to Unibanco's earnings. This performance resulted from higher premium revenues during the period, as well as from a lower claims ratio, coupled with improved financial results, which had been adversely affected by the appreciation of the real in fourth quarter of 2001. The insurance companies' technical reserves reached R\$660 million at March 31, 2002, compared to R\$625 million at December 21, 2001.

Private Pension Plans

Unibanco AIG Previdência earned R\$10 million in net income in first quarter of 2002, as compared to R\$5 million in fourth quarter of 2001. The reduction in the IGP-M general price index during the quarter and profit realization in connection with some financial assets accounted for the company's good performance. The company services approximately 490,000 individual customers.

Technical reserves were R\$1.6 billion on March 31, 2002 and R\$1.5 billion on December 31, 2001.

Credibanco - Cartão Unibanco

The credit card business of Credibanco - Cartão Unibanco produced a net income of R\$24 million in the quarter, as compared with R\$33 million in the fourth quarter of 2001. The number of cards issued totaled 3.6 million in first quarter of 2002, vs. 2.6 million in first quarter of 2001, a 38.5% growth. As a result, the company's market share increased to 10.1% from 8.8%. The total number of transactions carried out by Credibanco-Cartão Unibanco reached 15.0 million in first quarter of 2002, 15.4% above the previous year's figure.

Credicard Group

The Credicard group of companies - Credicard, Redecard and Orbitall - Brazil's credit card market leaders, generated an equity income of R\$49 million to Unibanco in the first quarter of 2002, and R\$ 36 million in fourth quarter of 2001. The good performance of the Credicard group companies in first quarter of 2002 vs. fourth quarter of 2001 is related to the seasonal volume of transactions in fourth quarter of 2001, which had an impact on costs, whereas the corresponding revenues only materialized this quarter.

Fininvest

Fininvest added R\$15.0 million to Unibanco's bottom line in the first quarter of 2002. Compared to fourth quarter of 2001, this result was better, thanks to more restrictive credit policies, as well as the improvements made to some products.

The company ended the period with R\$1.9 billion in assets, approximately 3.9 million active clients and 108 stores in Brazil's largest cities.

During the first quarter, the company continued to implement its expansion plan, aiming to increase its market share among lower income consumers through the opening of 6 new stores in Brazil. The opening of two more stores is planned for this year.

The process of integrating alike activities of Fininvest with Credibanco and Unibanco has continued. To illustrate, the Fininvest call center activities are in process of being merged with those of Unibanco, as a result of which annual expenses will be reduced by roughly R\$7.0 million.

Dibens

Dibens' first quarter of 2002 net income reached R\$8 million, in line with the previous quarter. The bank ended the quarter with a R\$1.2 billion loan portfolio.

Capitalization

During the quarter, Unibanco Capitalização became a unit of the Retail Bank, thus concentrating all the products and businesses targeting the major retail public under the same management. The purpose of this restructuring is to merge operating and administrative structures, increasing the company's efficiency and profitability.

Unibanco Capitalização's net income was R\$13 million for the quarter and technical reserves reached R\$232 million at March 31, 2002.

Asset Management

Unibanco Asset Management (UAM) ended first quarter of 2002 with R\$20.5 billion in assets under management, up 2.1% over December 31, 2001. Assets from pension funds reached R\$4.7 billion at the end of the quarter, placing UAM as the second largest company in this segment, with a share of 12.59%, according to Anbid (National Investment Banks Association).

Performance Overview***The Brazilian Economy - 1st Quarter Retrospective***

The Brazilian economy started to show signs of recovery during the first quarter. Industrial production, which hit its lowest point last October, decreased 2.2% in the first quarter of 2002 when compared to the same period last year, but rose 0.8% vs. December 2001, in seasonally adjusted terms. The end of power rationing and improved consumer expectations justify the resumption of economic activity. The modest growth is not yet reflected in an improved level of employment and real wages. In March, the unemployment rate reached 7.1%, vs. 6.5% during the same period in 2001.

Inflation, as measured by the IPCA consumer price index, reached 1.5% during first quarter of 2002. Even though inflation is falling slowly, the Central Bank initiated a gradual process of reducing the Selic interest rate, as a result of which, by the end of March, the rate had dropped to 18.5% from 19% p.a. in February. The Central Bank's decision showed that the monetary authorities are not pursuing the central point of the inflation target at any price, but attempting to minimize the impact on economic activity without jeopardizing the system of inflation targets, conforming to the range's cap. The merely marginal reduction in interest rates caused the volume of loans in the financial system to remain virtually unchanged in the first quarter, up only 0.9%. The total volume of credit granted by the private system slipped by 0.8% in the first quarter, whereas credit granted by the public system rose by 4.2%. As expected, delinquency levels were high, for seasonal reasons.

Brazilian external accounts posted a fairly positive performance during the first three months of the year, contributing to the stability of the exchange rate during the period. The real reached the end of the first quarter at R\$2.324/US\$, with a devaluation of only 0.14%. The trade balance posted a US\$1.07 billion surplus, vs. a US\$680 million deficit in first quarter of 2001. Foreign direct investment totaled US\$4.7 billion in first quarter of 2002, the same level as first quarter of 2001. The country risk reduction made it easier for the Treasury and Brazilian companies to obtain international funding. The Treasury issued US\$2.9 billion during the quarter, amount sufficient to roll over virtually all of the federal government's foreign debt falling due this year.

Results

First quarter of 2002 financial intermediation revenues (R\$2.6 billion) rose 43.0% this quarter, mainly due to the negative impact of the real appreciation (13%) relative to the US dollar in fourth quarter of 2001 results. In the first quarter of 2002, the stability of the exchange rate (devaluation of 0.14%) drove financial intermediation revenues back to their recurring levels. The results provided by

securities also suffered the impact of a 13.7% portfolio growth in the quarter and of a 38.9% growth over the past 12 months. The expenses on deposits and securities sold, and also on borrowings and onlendings were subject to the same exchange rate impact above mentioned, as well as an increase in the balances of time deposits.

Expenses with provisions for lending, leasing and other credits losses totaled R\$417 million in first quarter of 2002, 14.7% below fourth quarter of 2001 figure, and up 9.2% over first quarter of 2001.

The average spreads of the Retail Bank portfolio posted slight reductions, due to the economic environment and market conditions. In the Wholesale Bank, spreads remained unchanged.

Total Other Operating Income and Other Operating Expenses, at negative R\$66 million in first quarter of 2002, was R\$136 million better than fourth quarter of 2001. The net change in these items is due mainly to the impact of the exchange rate fluctuation on investments abroad. These investments, which amounted to R\$2.4 billion and R\$2.3 billion at the end of first quarter of 2002 and fourth quarter of 2001, respectively, were partially hedged during these periods.

First quarter of 2002 operating income of R\$391 million was 68.5% and 47.0% higher than fourth quarter of 2001 and first quarter of 2001, respectively.

Fees from Services Rendered

Fees from services rendered in first quarter of 2002 totaled R\$598 million, a 1.7% increase compared with fourth quarter of 2001 and a 17.7% rise year-to-year.

First quarter of 2002 banking fees of R\$290 million grew 2.5% from fourth quarter of 2001, and 16.0% over first quarter of 2001, as a result of the successful efforts of our ContAtiva organic growth plan, and the wider range of products offered to our customers.

First quarter of 2002 revenues in the credit card business amounted to R\$251 million, a 3.3% rise over fourth quarter of 2001 and 30.7% over first quarter of 2001, as a result of the client base increase.

Asset management fees reached R\$57 million in first quarter of 2002, 8.1% below fourth quarter of 2001, due to the migration of some clients to funds with lower management fees.

Main Performance Ratios

The first quarter of 2002 efficiency ratio of 55.8% improved from 58.4% in the previous quarter.

At the end of March 2002, the Unibanco group, including its subsidiaries, had 28,809 employees, compared to 29,704 at the end of December 2001. The reduction was due to the synergy gains that resulted from the completion of the Bandeirantes integration process and the restructuring in Fininvest.

The first quarter of 2002 annualized net financial margin was 11.3% compared to 12.1% in fourth quarter of 2001. The variation was mainly due to the effects of the exchange rate fluctuation on financial assets and liabilities linked to the US dollar in fourth quarter of 2001, as we have already mentioned.

Operating Highlights**Retail Bank**

- The Retail Bank had a good performance during first quarter of 2002 on its two operating fronts, as follows:
 - ✓ Organic growth - 200,000 new bank accounts were opened through the ContAtiva Program, which seeks to gain customers whose monthly income is higher than R\$1,000 for the service network under the Unibanco brand. This figure is 45% higher than the first quarter of 2001. The number of customers added during this quarter, coupled to the current base of account holders, savings and retirees totals 5.4 million, representing an annualized growth of 15.4%.
 - ✓ Low income segment → in this segment, Unibanco operates through Fininvest, a wholly-owned subsidiary since December 2000, and through its recent partnerships with Globex-Ponto Frio in Investcred Unibanco, and with Magazine Luiza in LuizaCred. Unibanco has a 50% stake in each one of these companies and is in charge of managing their businesses. Jointly, these companies also expanded their base by 200,000 new customers in the quarter, thereby adding 8.1 million clients to the Unibanco customer base. These partnerships completed in fourth quarter of 2001 have already started contributing positively to Unibanco's consolidated financial results.

Corporate Legislation**COMMENTS ON PERFORMANCE FOR THE QUARTER**

- Unibanco reached the end of March 2002 with 1,450 points of sale, as follows: 806 branches, 460 corporate-site branches, 76 in-store branches and 108 Fininvest stores.
- During the quarter, Unibanco Capitalização became a unit of the Retail Bank, thus concentrating all the products and businesses targeting the major retail public under the same management. During this quarter, following products were introduced: Uniband Nota 10 (Uniband Grade A+), a single payment capitalization security, marketed at lottery stores throughout the country, Sonho Programado (Programmed Dream), a product with monthly payments from 36 to 120 months, designed for home purchase and marketed through insurance brokers and, finally, ePlin, an innovative capitalization product entirely online which reached a 23% "website visits to sales" conversion ratio.
- Unibanco was once again chosen one of the best companies in the country in the marketing area by ADVB – the Brazilian Association of Sales and Marketing Executives. The strategies Unibanco developed in the areas of advertising and the Internet won the Marketing Top 2002 award. The new "Unibanco Couple" advertising campaign introduced in early 2001 caused declared recall to rise by 88%, resulting in a 70% increase in the efficiency of advertising investment, as measured by the ratio of message understanding (IAM), the best performance in the financial sector during the year. The Internet strategy resulted in a 156% increase in the number of visits to the Unibanco.com website, which jumped from 7.5 million in February 2001 to 19.2 million in January 2002. In 2001, more than 380,000 clients joined the new Internet Banking system.

Wholesale Bank

- In the BNDES Onlendings segment, Unibanco continued to rank first among private banks in first quarter of 2002 in disbursements, with a 9.6% market share. During the quarter, R\$242.2 million were disbursed for several projects approved in 2001 and earlier this year.
- In Debt Capital Markets, Unibanco maintained its no. 1 rank, both in terms of origination and distribution of securities, with a 29% market share in both categories. During this quarter, Unibanco coordinated three operations amounting to R\$474 million.
- In Equity Capital Markets, Unibanco completed its advisory services concerning the consolidation of the participation of Norsk Hydro ASA in the capital of Aduvos Trevo S.A. through the structuring and execution of a special auction at Bovespa (São Paulo Stock Exchange). Following the auction, Norsk Hydro ASA increased its participation in Aduvos Trevo S.A. to 99.9% of the voting capital and to 95.8% of total share capital. Still within this segment, Unibanco acted as Special Participant in the secondary global offering of Companhia Vale do Rio Doce – CVRD common stock, owned by the Federal Government and the BNDES.
- Unibanco took part in three Syndicated Loans transactions during the period in the role of Arranger or Co-Arranger, totaling R\$450 million.
- Regarding Project Finance, the ETEP – Empresa Paraense de Transmissão de Energia S.A. (a consortium comprised of the companies Alusa, Schahin and Eletrobrás) deal was completed. The company is a concessionaire for the implementation of a transmission line between Tucuruí and Vila do Conde substations in the state of Pará. Unibanco was also the Lead Manager of the syndicated loan, structured as project finance, employing BNDES funds totaling R\$31.3 million for a 9-year term, for the expansion of the co-generation plant situated in the Equipav facilities.
- In Cash Management, Unibanco increased its revenues by 21% vs. first quarter of 2001, to R\$73.1 million, having also expanded its partnerships with important companies to act as banking correspondents.

Insurance and Private Pensions Plans

- At the end of March 2002, the VGBL – Investir Seguro (VGBL – Safe Investing) product was launched. It combines life insurance with investment, enabling the insured party to redeem the invested amount at any time, while still offering coverage in case of death, accidents or disability. This product, which was recently regulated by Susep, is similar to PGBL but offers no fiscal benefits. Therefore, it is estimated that it will attract the segment of the population whose income is around R\$2,000/month (approximately 12 million people).

Wealth Management

- The Global Wealth Management market has been expanding over the last few years, posting the most aggressive growth rates within the financial services industry. In the same way as global leading institutions, Unibanco – in a pioneering move in the Brazilian financial market – merged its Private Banking and Asset Management businesses in first quarter of 2002.

- Information released by the Gazeta Mercantil business daily newspaper highlighted that mutual funds under management of UAM performed better than their benchmark references (CDI - Interbank rate), especially those with medium-high volatility. Among these funds, UBB FIF Derivatives was the one that provided the best returns. The following are also worthy of note: Unibanco Private Aggressive, Uni Class Aggressive, Unibanco Advantage Plus and Unibanco FIF Advantage Institutional.
- UAM was rated "AAA" by Atlantic Rating. In ascribing this rating to UAM, Atlantic Rating took into account the criteria of analysis, risk assessment and profitability of the securities that make up the assets under UAM management, as well as the high capacity of its executives, among others.
- In the Private Banking area, Unibanco grew by 4.2% in first quarter of 2002, reaching R\$7.5 billion in funds under management, a figure that consolidates its position among the largest Brazilian banks in the private banking segment. This substantial growth results from the broad range of unique products and services offered both in the Brazilian market and in the main international investment markets.

SPB - Brazilian Payments System

- Unibanco successfully began operating according to the New Brazilian Payments System (SPB - Sistema de Pagamentos Brasileiro) on April 22, 2002. As a protective measure, the financial market agreed to increase the minimum amount of funds transfers in the new electronic mode to R\$5 million, thereby substantially reducing the number of operations when the new system was introduced. Unibanco monitored the subject from the very start and took active part in the discussions and work groups organized by the Central Bank and class entities concerning the restructuring of the SPB. Given the project's complexity, several areas were involved, mainly information technology, products, back-offices, accounting, risk management, internal auditing and legal, with total investments of R\$18 million.

Community-oriented Activities

- The "10 years of Unibanco Ecology - Reaping the Rewards" case won the Super Environment Prize, granted by SuperInteressante magazine, from Abril publishers. The project featured 500 entries and three finalists in the Corporate - Community Relations category. The finalists and winners will be presented in a Special Edition of the magazine, in June. The prize granting ceremony will take place on May 27.
- Unibanco renewed its support for the Alfabetização Solidária (Solidary Literacy) program by contributing R\$510,000 during 2002. The program is a partnership between the Federal Government, universities and private companies, whose purpose is to reduce the levels of illiteracy in Brazil.
- Still in line with Unibanco's strategy of taking an active role in society with the purpose of reducing social inequalities, partnerships/agreements were signed with several institutions operating in the cultural, healthcare, educational, environmental and drug-abuse areas. Among these partnerships, we highlight: MAM - Museum of Modern Art; the Israel House of Culture; TUCCA - Association for Children and Teenagers with Brain Tumors; the Child Foundation - Childhood Cancer Institute - São Paulo; the Santa Casa de Misericórdia hospitals in Porto Alegre and Poços de Caldas; APAE - Association of the Parents and Friends of Disabled People in Poços de Caldas; Brazilian Community Action in Rio de Janeiro and the Ethos Institute - Journalism Award.
- Unibanco also operates in the field of culture through the Moreira Salles Institute, the Espaço Unibanco de Cinema (Unibanco cinema space chain) and Arteplex Unibanco movie theatres.
